

THS Rising 9th Grader Application for Honors Classes (2014- 2015)

Dear Rising 9th Grader and Parent/Guardian:

Tuscola High School is excited about your upcoming move to the high school! Our goal is to provide a fluid and positive transition for you and your family as you begin this new journey. Taking honors classes will challenge you academically while mandating high expectations. To compensate for the increased difficulty of honors classes, these classes will be weighted with an extra point in computing a student's grade point average.

In order to be placed in honors classes, this application is required from all students. This completed form will be considered your commitment to take the honors class/es for which you are eligible. Please understand Tuscola's policies concerning all advanced classes: once students have made their class selections, changes **will not** be made except per administrative discretion. Thus, both students and parents should be completely certain of the commitment they are making. Class availability and number of sections will be determined on student interest and qualifications.

The honors classes being offered to rising 9th graders with the specific placement criteria are listed below. WMS and THS will be working closely together to make sure all students are placed correctly. Please place a check mark (✓) beside the class(es) for which you are applying.
